Amy Brann

SPEAKER RIDER

In order to set us all up to best serve your people it would be great to consider the following and communicate with us if anything isn't possible.

AUDIO-VISUAL

- PowerPoint slides in 16:9 format will be provided at least 48 hours in advance of the event (unless any last minute tweaks are made based on new information received that will then benefit the delegates). Amy will check these during the AV check.
- Please arrange a time with Amy for an AV check, which must be done with attendees not in the room.
- Amy requires a wireless over ear or clip on microphone for any group of more than 25 people.
- A countdown clock is really useful.

STAGE / SPEAKING AREA

- Please provide a small round or square regular or high height table with water & glass for Amy's props
- Amy doesn't require anything else, but can work around anything you need for other purposes

SCHEDULING & LOGISTICS

- Because travel delays can happen, Amy prefers to arrive the night before. Please arrange or recommend a hotel that's either at the venue or close to the venue.

SLIDES & HANDOUTS

- Please note Amy will use the Synaptic Potential template for slides. These are specifically designed to layer learnings and support takeaways.
- Amy's full slide deck is not available for download, or for publishing as notes or a handout. Specific handouts, summaries, additional resources, workshop supporting materials are on request.
- Synaptic Potential owns and retains all rights to Amy's materials and content. They cannot be reproduced or distributed.

RECORDINGS & PHOTOS

- Feel free to take as many flash photos as you'd like before the talk, but please no flash during the presentation. Please share any photos with Amy's team.
- Unless you have a specific agreement pre-contract, you don't have the right to record and then resell or distribute in any way Amy's talk.
- If we've agreed to permit recording of the session, plan ample time to test sound pick up and to verify that the sound patch doesn't interfere with the projection-output quality and allow Amy to brief your videographer on particular things to watch out for!
