Knowing How Your Brain Works Changes... Everything

Today's guest speaker is an expert in unlocking the potential of the human brain. She's the author of multiple books on the topic, a trusted advisor to global CEOs, and a valued partner to organizations committed to achieving sustainable high performance.

She will reveal how our daily choices physically shape the brain and share powerful insights into how we can harness this extraordinary organ to work smarter, achieve more, and eliminate invisible barriers that hold us back. The practical Whole Brain Potential framework she's developed can be applied directly to what matters most to you—helping you reduce friction and unlock superior results with greater ease.

Please join me in welcoming the founder of Synaptic Potential and passionate brain advocate... Amy Brann.
